Ctec smart home
Home Automation & Security just a click away

Smart Switches

WiFi enabled switches are at heart of our home automation solution. These devices are available in one, two and three gangs. Ctec smart switches retrofit existing electrical points and connect directly to your home WiFi router. Once connected, these can be easily controlled by smart phone app. Additionally, all these switches are available in white and black colours. All light switches have non-WiFi models. Two-way switches are available in 1/2/3 Gang.

Ctec WiFi Light Switch 1 Gang

Ctec WiFi Light Switch 2Gang

Ctec WiFi Light Switch 3Gang

Smart Curtain Controller

Smart curtain controller allows to utilize your existing auto curtain apparatus to be controlled by a smart switch with option to open and close curtains from your smartphone. These switches connect directly to your home WiFi router and are then controllable from your smartphone using the product app.

Smart Dimmers

Use Ctec dimmer switch to add versatility to your home. Set an ambiance and adjust it to the different occasions suiting your need.

"Oh God, did I turn off all the lights? I really don't want to drive such a long way back to check on them"

"It would be great if someone could turn off the light for me after I got into bed"

"I feel so much safer with the front door lights on when I come home. It would be great if I could turn on the lights on my way home"

"I'd like to leave the lights on while we travel overseas, though it can be such a waste of energy. it would be great if I could control it remotely or even set a time to turn them on or off"

"I have to check on each room and make sure all the lights are off before going to bed, it would be great if I could do all of these remotely and all in one go"

"Trying to find the light switches in the dark sometimes can be very difficult. Is there an easy way to do it?"

"These light switches have transformed our house with a modern and stylish look, and I am sure we will get a good offer from the buyers"
