

Your Smart Home

The smarter way to secure your home.

ASSA ABLOY

An ASSA ABLOY Group brand

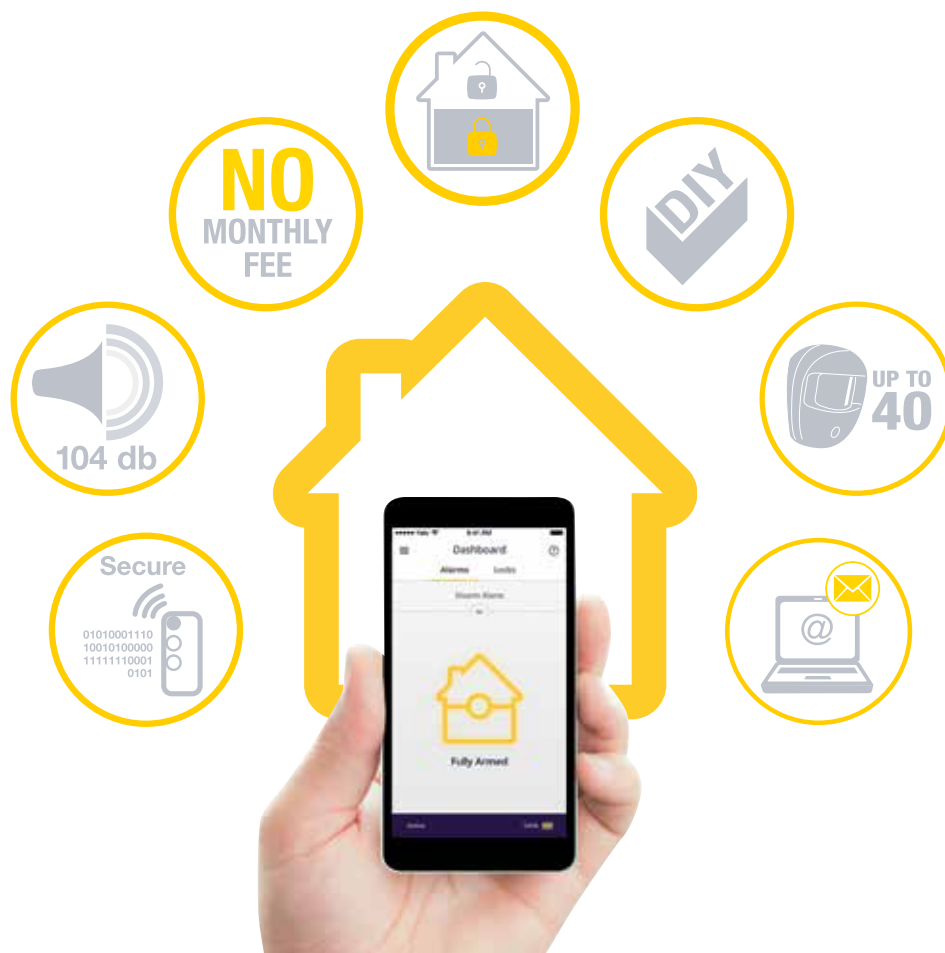

Secure Connect[®]. The intelligent security technology that gives you complete peace of mind.

Yale Secure Connect is designed for the way you live your life – it gives you the security, convenience and flexibility you need, and using it couldn't be simpler. It is a range of connected, smart security devices such as alarms and digital door locks that allow you to protect your home and loved ones from almost anywhere in the world through intuitive user-friendly apps.

From visitor access, controlling sockets, and security to alerts in an emergency wherever you are...

Secure Connect puts you in total control.

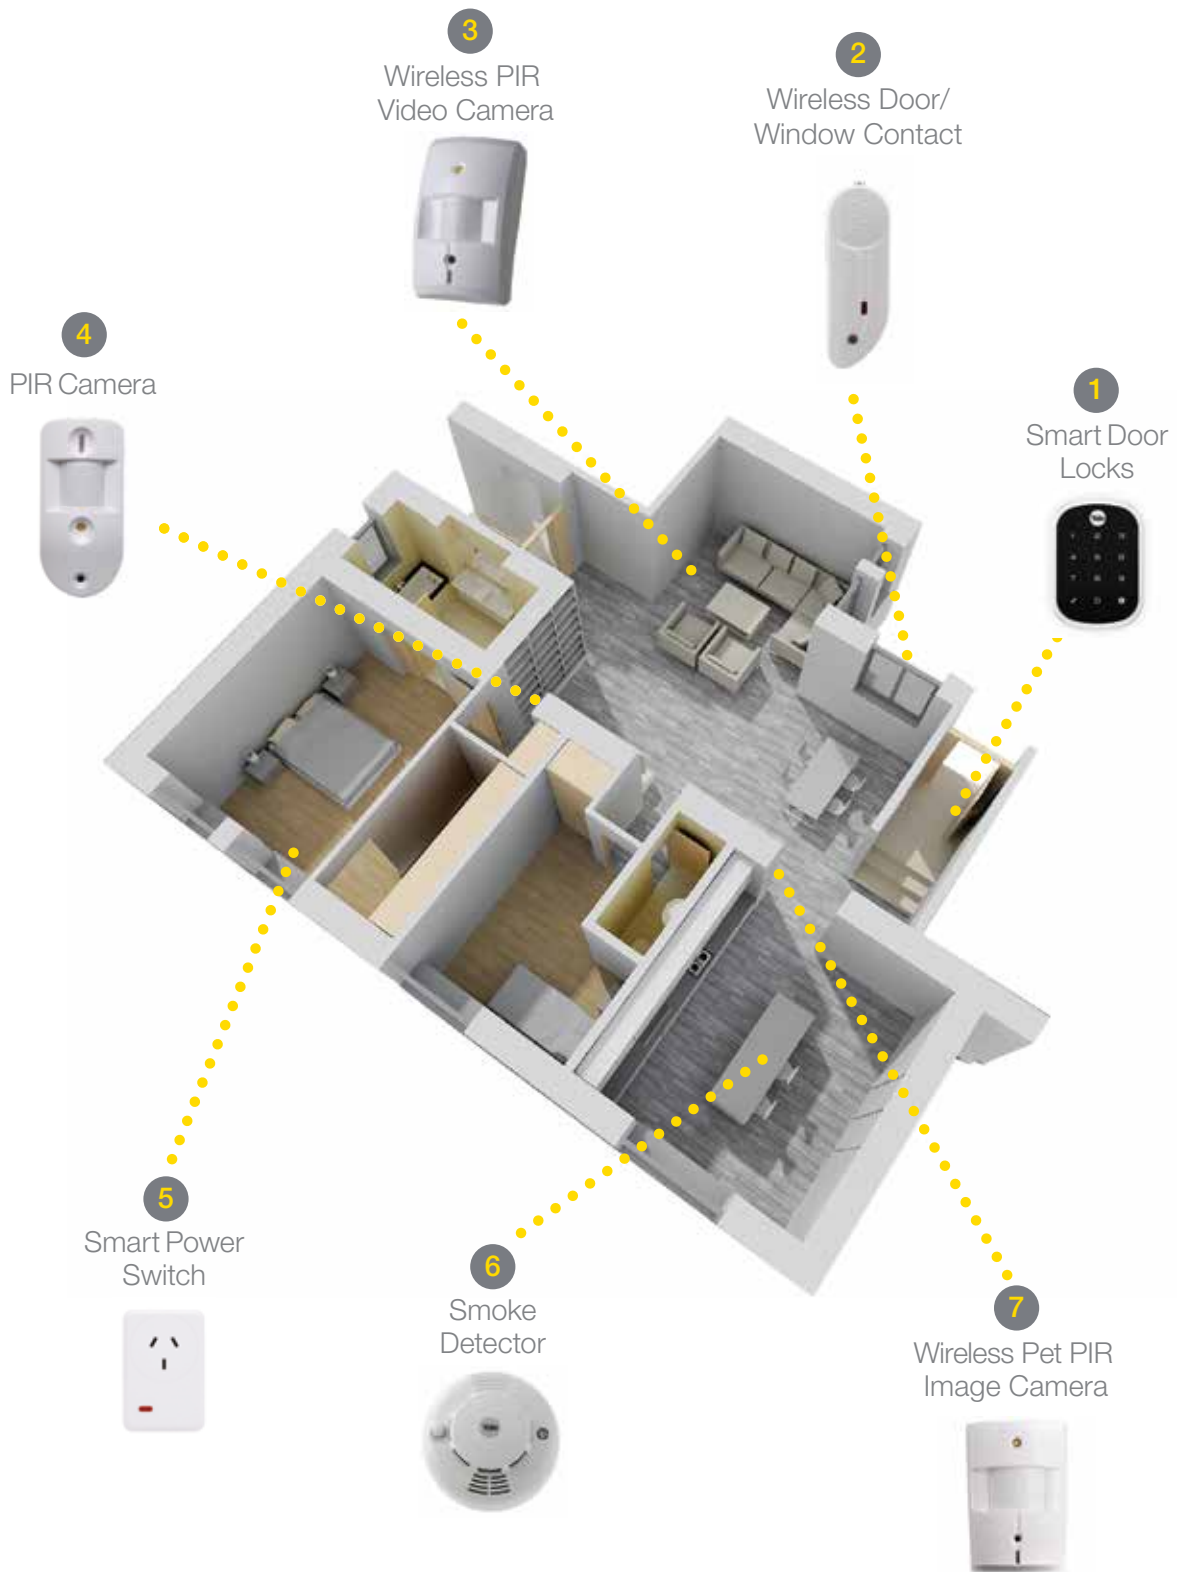

A complete smart home security solution

Secure Connect will provide you with a complete Smart home security solution. Protect your home with a system that suits you perfectly.

- 1 Smart Door Locks:** Free yourself from your keys. Simple to use, you now have complete control on how you unlock your door. With a push of a button you know who has keys to your door and when they enter.
- 2 Wireless Door / Window Contact** is ideal for homes with pets, where motion detectors could accidentally be triggered.
- 3 Wireless PIR Video Camera** activates the alarm and captures 10 seconds of video when someone moves around inside the home. Can be viewed via a Smartphone.
- 4 PIR Camera** activates the alarm and captures still images when someone moves around inside the home. Can be viewed via a Smartphone.
- 5 Smart Power Switch** allows users to remotely switch on and off household appliances using a compatible Smartphone.
- 6 Smoke Detector** will activate alarm, if smoke is detected.
- 7 Wireless Pet PIR Image Camera** know the difference between cat companions and cat burglars.

Smart Home Door Locks

A smart home starts with a smart door!

Secure and monitor your home from anywhere in the world.

Smart door locks are connected to the central elements of a smart home, providing full control as to when and who enters your home, the status of the door and lock, removing the hassle of traditional key management.

Lose Your Keys. For Good.®

HomeKit ready

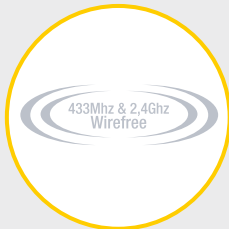

Smart Home Alarm Kit

The Yale Smart Home Alarm Kit gives you control of your alarm system from your Smartphone. The kit can be extended to include additional accessories including a power switch to turn home appliances on and off remotely (i.e. a lamp or radio), a PIR image camera to view images of the inside of your home, why not go smart with your door? A Smart home starts with a Smart Door lock. You can upgrade your system with a stand alone Smart Door lock or as connected with the Yale Home App.

Easy to install

The components are wireless and are therefore very easy to position around the home. The components in the kits are also pre-linked to the Smart Hub, so setting up is simple.

Secure

Yale uses 433MHz technology – a frequency that is tightly controlled, making it a clearer channel with less interference to help deliver maximum performance and security.

Totally controllable

The intelligent app allows you complete access to your home security. Whether you need to check that your alarm is armed, or view images from a PIR camera, you are in total control for complete peace of mind.

3 easy steps to get smart with: **Secure Connect®**

1

Purchase Alarm Kit

Your Alarm Kit components consist of Wireless Smart Phone Alarm, Wireless Siren, Wireless Remote Keypad, Wireless PIR Image Camera, Wireless PIR, Wireless Door/Window Contact and Wireless Remote controller.

2

Add Accessories

You can enhance the effectiveness of your kit and tailor your system by adding up to 40 accessories to your Smart Home alarm.

3

Easy Installation

The accessories contained in the starter kits are paired. Download and set up the app, activate and test accessories, mount accessories and optimise your system – it's that simple!

Smart Home Alarm Accessories

Smoke Alarm

Will activate alarm, if smoke is detected.

Wireless Door/Window Contact

Activates the alarm when opening door or window.

Wireless 360 PIR

433Mhz wireless technology battery operated.

Wireless Power Switch
